

	Editorial	Computer Medicine '2005 Scientific-practical Conference «Electronic Healthcare (eHealth)», June 23–25, 2005, Kharkiv, Ukraine	III
		Computer Medicine'2004 Report on Scientific-practical Conference «Clinical Informatics and Telemedicine»	IV
<hr/>			
	Original Articles	J. Mantas (Greece) Future trends in Health Informatics European Union initiatives	127
Health Information Systems		V. V. Domarev Protection of the information in medical information systems: medical secret and modern information technologists	146
		A. P. Yakovlev, S.Yy. Kolganov, M. I. Burmistrova Oryol Regional Clinical Hospital (ORCH) Automated hospital information system (AHIS)	155
		V. M. Buyalsky, V. M. Danilov Models and tools for designing of Medical Informational-Analytical System (MIAS) of Object Shelter Rehabilitation Center	158
<hr/>			
Information technologies in EEG/EP		O. Yu. Mayorov Computer EEG – past, present, future Part 1. A history of qEEG development, the review of special methods of research	165
		Dr. Jochen Schwind (Germany) New paths in routine EEG diagnostics	174
		IFCN standards for digital recording of clinical EEG Marc R. Nuwer, et al.	178
		V. V. Gnezditsky, E. E. Henriks, V. V. Kilikovskiy, O. S. Korepina The decision rule for the estimation of the vegetative paroxysm by skin somatic response data	181
<hr/>			
Heart rate variability (HRV)		T. F. Mironova, V. A. Mironov, Y. S. Shamurov, I. M. Utochkina, A.V. Kalmykova, V. L. Kodkin, A. N. Tarasov, E.V. Davydova, M. V. Mironov, A. M. Dubel Clinical analysis of heart rate variability and its apparatus-program equipment	189
		K. P. Vorobyev Monitoring of heart rate variability as reference method of an estimation of a functional state of an organism during hyperbaric oxygenation	197
		N. I. Tsirelnikov, D. A. Evseenco Adaptive and pathological changes of the fetal-placental complex during intrauterine hypoxia after pregnancy complicated by obstetric and somatic diseases	202
<hr/>			
The computer analysis of electrocardiograms		V. I. Shulgin, A. V. Pechenin, V. V. Fedotenko, K. V. Nasedkin, I. V. Lahno Blind source separation technology application to fetal electrocardiogram extraction	208
<hr/>			
The analysis of images		A. S. Barilo, S. V. Pavlov Optic-electronic methods of the analysis microcirculation of infringements at inflammation processes in jaw-facial region	213
		V. V. Kretov, J. G. Ukraintsev Information technologies of beam diagnostics on the basis of scanning system of reception of images	217

Information technologies in clinical practice	L. Ya. Kovalchuk, V. P. Marzeniuk Development of system analysis methods of pathologic processes for evidence-based medicine	221
Telemedicine	N. N. Ermoshkin , Internet Business Solution Group Cisco Systems Cisco. Delivering the Promise The role of integrated technology solutions in healthcare reform	227
	Bekir Karlik, Yousif Al-Bastaki (Bahrain) Bad breathe diagnosis system using OMX-GR sensor and Neural Network for telemedicine	237
	A. V. Vladzomyrskyy, V. G. Klymovytskyy Main stages and results of teleconsultation in clinical practice	240
Information technologies in medical education	M. P. Burykh, G. V. Goryainova, S. P. Shklar, P. O. Luchshev, R. S. Voroschuk Truly topographic approach in clinical anatomy	245
	V. Moroz, J. Khayimzon, E. Bondarchuck The system of computer modeling of vital functions processes of bodies and systems of the human being's organism	249
The legislation	Laws of Ukraine About protection of an information in automated systems	VIII
	Regulations About the chief informatician of Healthcare Ministry of Ukraine	XIII
	Regulations About the chief regional informatician	XV
Anniversaries	<i>Boris A. Kobrinsky – 60 anniversary</i>	XVIII
	<i>Rolf Engebrecht – 60 anniversary</i>	XIX
	<i>In memory about Anatoly B. Glukhov</i>	XX
Scientific Societies of Medical Informatics	<i>The Ukrainian Association «Computer Medicine» (UACM) – 2004</i>	XXI
	<i>International Medical Informatics Association (IMIA)</i>	XXV
Medical Informatics, Events, Conferences	MIE – Special Topic Conference 2005 «Health and Medical Informatics Applications – Educational Aspects» of the European Federation for Medical Informatics in 2005, Athens, Greece	XXVI
	<i>European Congress MIE–2005, Geneva</i>	XXVII
	<i>Calendar of Conferences, Congresses on 2005–2006</i>	XXX
New books	<i>New books on medical informatics, statistics and epidemiology, computer methods of diagnostics</i>	XXXIII
	Rules for authors	XXXV
	CONTENTS (IN ENGLISH)	XL
	Order form	XLII
